BUDI-2S
Building distribution enclosure

What is BUDI?

BUDI is a product range of compact wall mountable fiber enclosures for indoor and outdoor use. The enclosures are specifically designed for fast FTTH deployment and easy customer connection.

The BUDI product range offers service providers different capacities to fit all types of MDUs.
Features

- Designed to operate in outdoor locations (IEC61753-1 cat. C), outdoor ground location (IEC 61753-1 cat. G) and aerial locations (IEC61753-1 cat. A)
- Material: LSZH, flame retardant and UV stable
- Multiple cable ports and all wraparound
- Possible integration of optical components such as pre-connectorized splitters for example
- Patch panel with capacity of 6 SC or 12 LC connectors
- Cable can be conventional cable or blown fiber (in this case, including a gas block)
- Cable seals included:
  - 2 x up to 10 mm diameter
  - 1 x 4 cables up to 7 mm diameter
  - 1 x 12 pigtails up to 3 mm diameter
